

Outcomes of the “Stop the crop!” workshop at the Food and Democracy Conference (25 April 2009, Luzern), workshop leader: Helen Holder

Tools and arguments that can be used to stop GM crops:

- scientific arguments, evidence, allies
- work in coalitions
- economic interests (Hungary)
- pressure governments and political parties
- new member states: left out of original decision making
- national and European campaigns:
 - linking up
 - lobby/media/public
 - cyberactions
- pledges for European Parliament elections
- concerned scientists
- sovereignty
- 0.1% coexistence laws
